Departmentalized instruction is the organization of instruction in such a manner that teachers specialize in one or two subject-matter areas and give instruction in these areas in several classes. English language arts refer to all courses in subject-matter areas such as language skills including reading, linguistics, literature, composition, speech and dramatic arts.

ITEM XIII. PUPIL ASSIGNMENT WITHIN SCHOOL: Answer question XIII A or B for grades 2, 6, 9, and 12 if taught at this school campus. If none of these grades is offered or if the school is partially ungraded, answer for the lowest grade offered except pre-kindergarten and kindergarten. If the pupils in a grade have departmentalized instruction in English language arts and also self-contained classroom instruction, answer only XIII B for that grade.

Pupil classroom groupings vary depending on the number of sections involved by the subjects taught. The same pupils may be grouped into various combinations depending on the subjects they take. Some multiple counting of pupils may result in this particular Item.

Report the entire section if that section has at least one pupil in the grade specified. For example, if there are five grade-three pupils in a section with 25 grade-four pupils, report all 30 pupils in that section. In this example mark "3 and 4" in Grade Level column.

If the school is totally ungraded, consider as a section each instructional grouping during the first half hour of the day and report all sections regardless of the subject matter. Report the number of pupils in each section (instructional grouping), separately. Enter "ungraded" in the Grade Level column and identify each section within the school by name or number.

The section name and/or identification number should be the name and/or identification used by this school to differentiate between instructional groupings (for example, English 9-a or Miss Jane Jones' Section).

If a school offers team-teaching modular units (such is the case of schools offering only special education and/or Pre-K and K), annotate as such under the appropriate section identification.

If classroom groupings vary from day to day or week to week, report for the classroom groupings that exist on October 2nd or on nearest possible date to October 2nd.

If additional space is required, continue on Form OS/CR 100-A Individual School Campus Report Continuation Sheet. Use as many continuation sheets as required and attach the sheets to this report. Enter in the space provided, the number of continuation sheets attached.

If additional continuation sheets are needed, contact:
